REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

The cited art of record fails to teach an apparatus and method for testing a plasma processing system comprising steps of measuring a first capacitance value between the bottom electrode and the grounded chamber at atmosphere, and a second capacitance value between the bottom electrode and the grounded chamber at vacuum, comparing said first and second capacitance values with first and second reference values to identify and determine any defects in the plasma processing system, said first and second reference values respectively representative of the capacitance of a defect-free chamber at atmosphere and the capacitance of a defect-free chamber including at least one installed consumable hardware part at vacuum as defined in claims 1, 10, 12 and 20-21. Therefore, claims 1-8 and 10-22 are presently allowed.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
